

LOKUM

Acerbis

Matter, light and colour merge in an intense material interplay in the Lokum series of low tables designed by Sabine Marcelis for Acerbis. It is a collection that captures the sophistication of minimalist shapes and is enhanced by the skilled craftsmanship of blown glass.

FABULA

Fratelli Boffi

Fratelli Boffi presented 'Fabula' at Salone del Mobile 2024, a project by storagemilano. Fabula combines the strong traditional feel of Fratelli Boffi workmanship with the contemporary architectural design approach of storagemilano, resulting in a warm and welcoming yet muted space.

POD

Paola Lenti

The Pod platform sofa is designed by CRS Paola Lenti for outdoor use. The sofa is supported by painted steel legs with adjustable plastic feet. The Pod series also includes a lounge chair that consists of a seat that lies directly on the ground and a back cushion.

CATIFA CARTA

Arper

Designed in 2001, Catifa 53 was Arper's first product with an environmental product declaration. Catifa Carta is a circular reinterpretation of this now classic chair. Its re-engineered shell is made out of a composite wood by-product that dramatically reduces Catifa Carta's impact on the environment.
