

Il Giardino di Corten  
**Convivium**

Convivium is an outdoor **modular kitchen** that offers all of the most modern cooking and cocktail station equipment and spaces. Thanks to a customizable, modular, Cor-Ten and stainless steel structure, the Convivium Grill Basic Set may be configured with either an electric, gas, or charcoal grill and a wooden cutting board. Equipped to function as a bar, Convivium Cocktail Station Basic Set is rounded off by a stainless steel sink and retractable faucet zone.

[LND] Lighting  
**Firefly**

Inspired by fireflies, Firefly is an **outdoor lighting fixture** for poetically styling luminous paths in perfect harmony with the greenery of a garden or hybrid indoor/outdoor space. Buyers may choose between a bollard or hanging version, each equipped with a 2W monochromatic white LED light source, or RGBW (available upon request). Five finishes are available: Light Gray, Graphite, Oxide, White, and Green.

Ledvance  
**Endura Flood Solar**

The Endura Flood **LED projector** is part of the Solar range, taking Smart+ technology a step further by harnessing solar energy. All devices come with adjustable sensors to turn lights on and off only as needed. Lantern, spotlight, stake, portable and pedestal fixtures charge by day and automatically turn on at dusk. The ever-changing light effects can also be turned on remotely.

Paola Lenti  
**Pod**

Pod's outsized cushions and knitted covers evoke the comfort of a woolen sweater in a new **seating** series that, soft and generously shaped, encourages relaxation by inviting users to experience a different aspect of comfort and style. Conceived for the outdoors yet equally at home indoors, the series includes a lounge chair and a platform that becomes a comfortable sofa simply by adding backrests or support cushions.
