Summer style for  
in and outside

## LOUIS VUITTON SWING BOAT

Inspired by a folding boat, this elegant double swing chair has a subtle nautical feel while being easily packed away when not in use. With its leather straps and gilded brass hinges it will quickly transform either a corner of a garden or inside an apartment with ease, liberating afternoon naps all year round.

## BOULE VASE DESIGNED BY OLIVIA HERMS FOR SKULTUNA

Add pastel coloured cut flowers to this polished brass vase to finish any dining set up. Combine a variety of sizes (available in extra small, small and large) for a stronger feature.

From: £70  
Available from: Skandium

In seasons when the weather can still be somewhat unpredictable – at least in the UK – relying on strong design choices that look at home both indoors and out is essential. Setting a table indoors to then be surprised by a burst of sunshine means that with these objects of desire (in our eyes, at least) a transition to outdoor socialising can be easily achieved.

Space permitting, the Swing Boat from Louis Vuitton with its sumptuous leather cushions can be quickly packed away if the weather disobeys, and reinstated inside. Although the Theia lamp is intended for indoor use, the functional adjustments of two half spheres allow for use as an indoor reading lamp, or a soft diffused mood light. Long a favourite for restaurateurs and homeowners alike, the wishbone chair had to feature in this selection but this time with a splash of orange colour – one of a large handful of crush colours now available.
