

△ CLASSIC LINES

It is important that the design of a garden room is in keeping with the main property. For a country house, classical proportions and a curved lead roof make a bold architectural statement. Designed by Vale Garden Houses, valegardenhouses.co.uk, this structure enjoys an elevated position to best admire the view.

▷ MODERN LOVE

Contemporary outdoor rooms with clean lines will sit well in any garden, whether minimalist or more traditional. This multipurpose, modular Cabanne by Paola Lenti, modernrgarden.co.uk, provides shelter from the midday sun, as well as a space for entertaining in the evening.
