

Aria

Butaca ergonómica, compuesta por un asiento hecho con una sola pieza de tejido de malla, tensada alrededor de la estructura de soporte en acero tubular. Sin el tradicional tapizado, la silueta parece más ligera. Se acompaña de un puf con estructura de acero y asiento en malla elástica.

Ergonomic armchair with a one-piece seat in mesh fabric tensed around a tubular steel support frame. The lack of traditional upholstery gives its silhouette a lightweight appearance. It is complemented by an ottoman with a steel frame and elastic mesh seat.

Diseño/Design: **Atelier Oï**

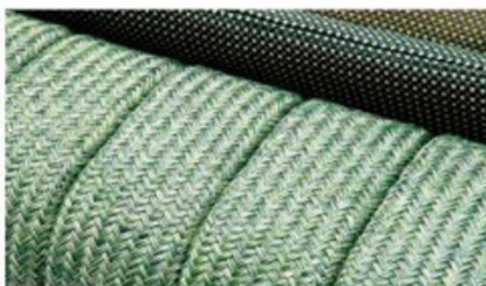

Frame

Familia compuesta por sillas, tumbonas, sillones, sofás modulares, chaise longues, mesitas y bancos. La estructura de aluminio está cubierta por hebras Twiggy en una mezcla de colores, con hebras de cuerda en combinaciones de dos colores o mezcla de colores o con hebras Aquatech en colores sólidos. Los asientos se complementan con cojines desenfundables tapizados con telas Luz, Rope T, Brio o Thea. Las hebras de Twiggy, cuerda y Aquatech y todas las telas de esta colección son aptas para uso exterior.

This collection is made up of chairs, armchairs, modular sofas, chaise longues, side tables and benches. Their aluminium structure is covered with Twiggy braids in colour blends, with rope braids in two-colour combinations or colour blends, or with Aquatech braids in solid colours. The seats are complemented by cushions with removable upholstery in Luz, Rope T, Brio or Thea fabric. The Twiggy, rope and Aquatech braids are suitable for outdoor use, as are all the fabrics in this collection.

Cuba Chair

Silla plegable ligera y altamente funcional, ahora en una nueva variante fabricada con madera de teca maciza no tratada con el certificado FSC® y con unos soportes de acero inoxidable que garantizan su durabilidad a largo plazo y su resistencia al viento y a las inclemencias del tiempo. El asiento y el respaldo están tejidos con cuerda plana resistente al agua y a la luz solar fuerte, altos niveles de humedad y temperaturas variables. La estructura plana de la cuerda implica que el asiento y el respaldo de la silla se secan muy rápidamente.

Lightweight and highly functional folding chair, now in a new model made of solid untreated FSC® certified teak, with a stainless steel frame ensuring long-term durability and resistance to wind and weather. Seat and backrest in flat rope resistant to water and high humidity, strong sunlight and temperature fluctuations. The flat shape of this rope allows the seat and backrest to dry very rapidly.

Diseño/Design: **Morten Gøttler**
