

New to colourliving this season is colourful Italian furniture company Paola Lenti. Its Mellow sofa designed by Francesco Rota was made for outdoor use, and features removable seat back and arm rests made from cold injected stress resistant polyurethane encased in a water repellent polyester covering. Its structure is made from cataphoresis treated varnished steel covered with a polyester net. The oversized armrests give Mellow its distinctive cloud-like appearance.

今季新加盟Colourliving的品牌是意大利家具公司Paola Lenti，主打色彩繽紛的傢具。該品牌旗下的Mellow Sofa由Francesco Rota設計，是一套適合室外使用的沙發，特設可移除的靠背和扶手，兩者均採用冷凍注入方式把抗壓聚氨酯注入由防水聚酯纖維製成的面料中，支架採用經電透法處理的塗漆不鏽鋼製成，面料為網狀聚酯纖維，巨型扶手營造出獨特的雲狀外觀。

Meanwhile, B&B Italia's Butterfly was so named as the contour of the arm and backrest resembles the wings of a butterfly. Designed by Patricia Urquiola, it is an outdoor modular seating system ideal for lounge lizards. Shaped around the ottoman, its core component, additional pieces such as backrests and armrests allow for an endless combination of seating arrangements. Butterfly also comes with small tables and consoles, allowing for further customisation.

B&B Italia亦有推出沙發系列，由於其扶手和靠背的外型酷似蝴蝶翅膀，因而以「蝴蝶」命名。這套由Patricia Urquiola設計的戶外組合沙發，絕對能登大雅之堂。整套沙發的擱腳檯、主件及額外組件如靠背和扶手，可幻化出無限種座位組合。Butterfly更附有小茶几，真正做到盡善盡美。
